

COB & CO

AVAILABLE IN 20KG BLOCKS

A multi-nutrient supplement formulated for livestock grazing pastures deficient in copper and cobalt. Supports overall livestock health.

Olsson's Cob & Co is a macro-mineral supplement formulated for livestock diets that may be deficient in copper and cobalt. Copper and cobalt are essential nutrients involved in normal metabolic processes, including the formation of vitamin B12 and the subsequent production of red blood cells and haemoglobin. Cobalt also has a role in maintaining normal nerve cell function. Copper contributes to iron metabolism, bone development and the maintenance of elastic connective tissue. Cob & Co provides a source of these minerals for inclusion in feed programs year-round.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging. Avoid contact with skin and eyes.

DIRECTIONS FOR USE

Sheep/Goats: 5-10g per head per day

Cattle: 50-100g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

TYPICAL ANALYSIS

Molasses	4.5%	Sulphur (S)	0.83%
Salt (NaCl)	Max. 58.7%	Copper (Cu)	3000mg/kg
Calcium (Ca)	11.5%	Cobalt (Co)	400mg/kg
Phosphorus (P)	0.44%	Selenium (Se)	26mg/kg
