

# TRACE ELEMENT + 3% UREA

AVAILABLE IN 20KG BLOCKS

**A macro mineral supplement designed for a broad range of mineral deficiencies, supporting efficient feed conversion.**

Olsson's Trace Element Plus 3% Urea is a macro-mineral supplement block formulated with copper, iron, zinc, manganese, cobalt, iodine, and selenium. It provides a source of these minerals in block form, combined with 3% urea, to complement grazing and feeding systems where pastures and soils may not provide sufficient mineral levels.

This block is suitable for use as part of standard supplementation practices across a wide range of grazing conditions.

**Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.**

#### Storage Instructions:

Store out of direct sunlight and under cover. Avoid contact with skin and eyes.
