Magnesium (Mg)	0.1%

AMINO ACIDS

Methionine	0.08%
Lysine	0.07%
Arginine	0.48%
Leucine	1.0%

**FOR ANIMAL TREATMENT ONLY.
THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

Olsson's Sulphur Plus 16.2 is a palatable sulphur block that provides 20% protein meal, sulphur & added amino acids, for enhancing rumen functions. Sulphur should be available to livestock at all times, as it is important to the growth and survival of fungi in the rumen which are essential in assisting the rumen bacteria in deriving essential nutrients from dry and fibrous feeds.

Sulphur is also critical when offering high urea supplementation to encourage optimum rumen flora.

DIRECTIONS FOR USE

Feeding Instructions:

Sheep/Goats: 1 block per 50 head

Cattle: 1 block per 15 head

Always use when a urea block is introduced. Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.

Locate blocks away from watering points to maximise pasture utilisation.

Avoid contact with skin and eyes.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.
