

DRY FEED 12

With 12% Urea

20kg

A rumen digestible protein supplement for superior feed conversion of dry feed.

TYPICAL ANALYSIS

Urea	12%
Total Protein Equivalents	35.1%
Salt (NaCl)	52.45%
Sodium	20.45%
Molasses	2%
Calcium (Ca)	11.42%
Phosphorus (P)	0.001%
Magnesium (Mg)	0.012%
Sulphur (S)	0.004%

FOR ANIMAL TREATMENT ONLY.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.

Olsson's Dry Feed 12 has been designed specifically to aid both cattle and sheep in increased and consistent productivity gains.

With a balance of urea and calcium, combined with essential trace elements, this block will perform in a variety of paddock situations.

DIRECTIONS FOR USE

Feeding Instructions:

Consumption rates are dependent on pasture conditions.

Sheep/Goats: 5-10g per head per day

Cattle: 100-150g per head per day

Place away from water troughs & dams. Place out sufficient blocks to avoid overcrowding of stock. Initially, the consumption rate will be higher than average, but higher rates of consumption will drop after an initial "gorging" period. Replace immediately when consumed.

Avoid contact with skin and eyes.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover.
