

ALLICIN + SULPHUR

AVAILABLE IN 20, 40, 100 & 125KG BLOCKS

A sulphur supplement designed to support rumen activity & wool productivity. With the addition of Allicin Plus, a compound derived from garlic.

Allicin is a natural compound extracted from garlic. The compound is formed naturally when garlic is crushed, and is part of the plant's defense mechanism against insects and other pests. When ingested by livestock allicin is excreted through the animal's breath and skin.

Olsson's Allicin + Sulphur block is formulated to provide sulphur and key nutrients that support general metabolism and protein synthesis in livestock. Contains allicin, a compound derived from garlic. Suitable for cattle, sheep, horses, and goats.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.

DIRECTIONS FOR USE	TYPICAL ANALYSIS	
Sheep/Goats: 5-10g per head per day Cattle/Horses: 30-50g per head per day Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.	Molasses	4%
	Salt (NaCl)	Max. 80%
	Sulphur (S)	12%
	Allicin	0.3%
