

BENTOBITE

**20 &
34kg**

A protein supplement with bentonite.

TYPICAL ANALYSIS

Protein Meal	25%
Total Protein Equivalents	9%
Molasses	7%
Salt (NaCl)	31%
Bentonite	33%
Sulphur (S)	2.2%

FOR ANIMAL TREATMENT ONLY.

**THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

Olsson's Bentobite helps absorb toxins, boosting production and controlling green season scouring.

Containing bentonite and protein meal, this block offers the benefits of binding some toxins in the gut, balancing rumen function and offering bypass protein.

Research at the University of New England showed that the addition of a very small amount of bentonite clay mineral and high quality bypass protein into the diet of sheep and cattle was highly beneficial in improving productivity.

DIRECTIONS FOR USE

Feeding Instructions:

Feed rates are dependent on pasture conditions.

Sheep/Goats: 5-10g per head per day.

Cattle: 50-100g per head per day.

Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.

Bentobite can be used in conjunction with the Olsson Free Choice System.

Avoid contact with skin and eyes.

Storage Instructions:

Store out of direct sunlight and under cover.
