Vitamins B1, E	

**FOR ANIMAL TREATMENT ONLY.
THIS PRODUCT DOES NOT CONTAIN
RESTRICTED ANIMAL MATERIAL.**

NEW AND IMPROVED. Olsson's Goat Blocks & Bricks are salt based supplements which have been formulated for goats. They are available in 20 & 40kg lick blocks and convenient 2kg bricks.

Goats have common mineral deficiencies for cobalt, copper, iodine and selenium, dependent on the available pasture. Manganese and zinc deficiencies can also be common in some parts of Australia.

DIRECTIONS FOR USE

Feeding Instructions:

Goats: 5-10g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.

Place near water troughs, dams, stock paths and camps.

Replace immediately when consumed.

Avoid contact with skin and eyes.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.
