

NT URAPHOS + 40% UREA

AVAILABLE IN 40 & 100KG BLOCKS

A high protein supplement with phosphorous & broad range macro & micro minerals, designed to assist stock with maximum protein conversion.

Olsson's NT Uraphos is a supplement block formulated for cattle grazing dry feed in phosphorus-deficient regions such as Northern Australia. It contains a high level of phosphorus and 40% urea, supplied in a compressed dry block delivery system that helps regulate intake.

This block provides a convenient option for graziers managing cattle nutrition in areas where pastures are low in phosphorus. Suitable for all cattle breeds.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover. Avoid contact with skin and eyes.

DIRECTIONS FOR USE

Use in accordance with the Olsson Free Choice System.

Cattle: 90-150g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed. Locate blocks away from watering points to avoid over consumption & to encourage stock utilise the available paddock feed.

TYPICAL ANALYSIS

Urea	40%	Zeolite	8%
Total Protein Equivalent	114.68%	Calcium (Ca)	2%
Molasses Energy	22.46%	Phosphorus (P)	2%
Equivalent		Magnesium (Mg)	0.28%
Salt (NaCl)	36%	Iron (Fe)	1000mg/kg
