

EXTRA DRY

AVAILABLE IN 15KG & 40KG BLOCKS

A lick block containing amino acids, essential minerals, urea, live probiotics and chromium, designed to support livestock in grazing tough grasses, including tussock.

Olsson's Extra Dry is a high-protein supplement block containing essential minerals and a microprotein blend. The microprotein is a stable, easily digestible source of amino acids produced through microbial fermentation of natural raw materials such as raw sugar and beet molasses.

This block also contains chromium as a nutritional ingredient, as well as live probiotics *Bacillus Subtilis* & *Licheniformis*.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging. Avoid contact with skin and eyes.

DIRECTIONS FOR USE	TYPICAL ANALYSIS	
Cattle: 10-60g per head per day Use with dry feed and stubbles. Consumption rates will depend on life cycle of the herd and the quality of the available feed. Replace when consumed.	Single Cell Protein Meal (Microproteins)	15%
