

# TRACE ELEMENT + COPPER & COBALT

AVAILABLE IN 20, 40 & 100KG BLOCKS

**A macro mineral supplement designed for a broad range of mineral deficiencies.**

Olsson's Trace Element with Copper & Cobalt is a macro mineral supplement designed for a broad range of mineral deficiencies.

Balancing these essential elements results in the efficient breakdown of feed consumed by the animal.

Deficiencies in copper, iron, zinc, manganese, cobalt, iodine, & selenium can reduce the animal's growth and reproduction rates, and result in less efficient feed conversion and depressed immunity. Balancing these elements will improve general production of the herd. Trace Element with Copper & Cobalt can be used year round and fed on an ad lib basis.

### Storage Instructions:

Store out of direct sunlight and under cover. Avoid contact with skin and eyes. Edible carton and packaging.

### DIRECTIONS FOR USE

**Sheep/Goats:** 5-10g per head per day

**Cattle:** 50-100g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.
