

MEGAPHOS + 10% UREA

AVAILABLE IN 40KG BLOCKS

A palatable phosphorus supplement with 10% urea. Suitable for livestock in phosphorus deficient country.

On abundant, high-quality feed, rapidly growing calves and lactating cattle have the greatest requirement for phosphorus, while dry stock on survival rations have the least. Cattle and sheep can compensate for short periods of low dietary phosphorus by mobilising it from their bones.

Olsson's Megaphos is a molasses-based block containing available phosphorus, with 10% urea included for additional protein.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed.

Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging.

DIRECTIONS FOR USE	TYPICAL ANALYSIS			
Sheep/Goats: 5-10g per head per day Cattle/Horses: 50-100g per head per day Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace blocks when consumed.	Urea	10%	Calcium (Ca)	8.5%
	Total Protein Equivalent	28%	Phosphorus (P)	6%
	Molasses	Min. 37.4%	Sulphur (S)	1.5%
	Salt (NaCl)	2.5%	Magnesium (Mg)	4%

FOR ANIMAL TREATMENT ONLY. THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.
