Olsson's ECONO MAG is a formulation designed to assist animals with magnesium deficiencies.

Typical symptoms of a lack of magnesium include restlessness, staggers, an over-alert appearance, being excitable, and in some cases, aggressiveness. In severe cases, animals may fall down and convulse or die without warning.

For best results Econo Mag blocks should be available to stock before signs of deficiency are evident.

DIRECTIONS FOR USE

Feeding Instructions:

Use in accordance with the Olsson Free Choice System.

Sheep/Goats: 5-10g per head per day

Cattle: 50-100g per head per day

Replace immediately when consumed. Place out sufficient blocks to avoid overcrowding of stock.

Intake is recommendation only, higher intakes are normally the result of mineral deficiencies.

Avoid contact with skin and eyes.

Storage Instructions:

Store out of direct sunlight and under cover. Store below 30°C (room temperature).
