

# INTERCEPTOR +

AVAILABLE IN 20 & 40KG BLOCKS

**Crafted through years of innovation to support gut health in livestock of all ages with a special focus on weaners.**

Olsson's Interceptor Plus block is an industry first, containing allicin (garlic), live probiotics, live fungi, diatomaceous earth, bentonite, biochar, chromium & single cell protein (amino acids).

Interceptor Plus is a perfect block for both weaner and adult cows, sheep, goats, horses & alpacas. We recommend using Interceptor Plus alongside Herd Health, Ewe Beauty, the GOAT Block or 007 Mineral Horse Block.

**Storage Instructions:**

Store out of direct sunlight and under cover. Edible carton and packaging.

DIRECTIONS FOR USE	TYPICAL ANALYSIS			
<b>Sheep/Goats:</b> 5-10g per head per day	Salt (NaCl)	32.6%	Live Probiotics (DFM)	0.65%
<b>Cattle/Horses:</b> Ad lib (typically 30-50g per head per day)	Single Cell Protein	20%	Live Fungi	0.65%
<i>Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies.</i>	Molasses	7.0%		
	Bentonite	25.0%	Also contains Allicin	
	Diatomite	5.0%	(equivalent to garlic 25%) &	
	Biochar	4%	Chromium (Cr)
