

# LACTOVITE + COPPER

AVAILABLE IN 20KG BLOCKS

**A protein supplement with added trace elements and minerals, designed for breeding stock and their young.**

Olsson's Lactovite + Copper lick blocks are formulated to supply additional nutrients for breeding stock and their young. The block contains protein meals, phosphorus, and a balance of trace elements and minerals to complement feed and pasture availability during the breeding cycle.

## Storage Instructions:

Store out of direct sunlight and under cover. Edible carton and packaging. Avoid contact with skin and eyes.

## DIRECTIONS FOR USE

**Sheep/Goats:** 5-10g per head per day  
**Cattle/Horses:** 50-100g per head per day

Intake is recommendation only, higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed. Initially, the consumption rate will be higher than average, but higher rates of consumption will drop after an initial "gorging" period.

## TYPICAL ANALYSIS

Bypass Protein Meal	15%	Cobalt (Co)	100mg/kg
Total Protein Equivalents Max.	5%	Potassium (K)	800mg/kg
Molasses	6%	Zinc (Zn)	400mg/kg
Salt (NaCl)	49%	Ferrous Iron (Fe++)	1350mg/kg
Calcium (Ca)	13.2%	Iron (Fe)	650mg/kg
Phosphorus (P)	4.1%	Iodine (I)	1500mg/kg
Sulphur (S)	3%	Selenium (Se)	26mg/kg
Magnesium (Mg)	0.03%	Manganese (Mn)	100mg/kg
Copper (Cu)	725mg/kg
