

U30 WITH 30% UREA AVAILABLE IN 36KG BLOCKS

A rumen digestible protein supplement for superior feed conversion of dry feed, containing 30% urea. Ideal for deteriorating pastures.

Olsson's U30 provides both digestible protein for rumen micro-organisms and bypass protein for the animal, supplied in a compressed block form. The block design offers a secure method of urea and protein delivery that helps regulate intake as part of dry-season feeding systems.

Suitable for all cattle breeds.

Warning: Products containing urea can be toxic to livestock. Please ensure proper farm management practices are employed

Storage Instructions:

Store out of direct sunlight and under cover. Avoid contact with skin and eyes. Edible carton and packaging.

DIRECTIONS FOR USE	TYPICAL ANALYSIS			
<p>Use in accordance with Olsson's Free Choice System.</p> <p>Sheep/Goats: 5-10g per head per day</p> <p>Cattle: 50-100g per head per day</p> <p>Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.</p>	Bypass Protein Meal	15%	Salt (NaCl)	36%
	Urea	30%	Calcium (Ca)	1.2%
	Total Protein Equivalent	89%	Phosphorus (P)	0.08%
	Molasses	6%	Sulphur (S)	0.04%
