

# TRACE ELEMENT NORTHERN BREEDER

AVAILABLE IN 40 & 100KG BLOCKS

**A supplement formulated for northern pastures, providing trace elements that support growth and reproductive function in livestock.**

Olsson's Trace Element Northern Breeder is a macro-mineral supplement block formulated for cattle grazing northern pastures. It provides a source of copper, iron, cobalt, iodine, and chromium in block form, designed to complement the mineral intake of grazing livestock. Trace Element Northern Breeder also has additional zinc & selenium to support cow & bull reproductive performance.

This block is suitable for year-round use and can be fed on an ad-lib basis as part of standard supplementation practices. Trace Element Northern Breeder offers graziers a convenient way to supply additional minerals in environments where pastures and soils may not provide sufficient levels.

## Storage Instructions:

Store out of direct sunlight and under cover. Avoid contact with skin and eyes. Edible carton and packaging.

DIRECTIONS FOR USE	TYPICAL ANALYSIS			
Use in accordance with Olsson's Free Choice System.	Molasses	5%	Cobalt (Co)	65mg/kg
<b>Sheep/Goats:</b> 5-10g per head per day	Salt (NaCl)	82%	Ferrous Iron (Fe++)	1350mg/kg
<b>Cattle:</b> 50-100g per head per day	Calcium (Ca)	1%	Iodine (I)	500mg/kg
Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.	Phosphorus (P)	1%	Selenium (Se)	104mg/kg
	Sulphur (S)	0.8%	Iron (Fe)	650mg/kg
	Magnesium (Mg)	0.02%	Zinc (Zn)	2400mg/kg
	Copper (Cu)	1000mg/kg	KemTrace™ Chromium	58mg/kg
