

PLAIN SALT WITH IODINE

AVAILABLE IN 20KG BLOCKS

A sodium supplement with iodine for a nutritionally balanced diet for all ruminants and other livestock. Plain Salt is essential in balancing sodium level.

Olsson's Plain Salt with Iodine block is a critical part of a nutritionally balanced diet for all livestock. Animals will crave salt at different times, which may not be obtained in their available diet. Olsson's Plain Salt with Iodine is an essential part of balancing the sodium level required by the animal at any given time. Salt blocks can be fed ad lib at all times of the year.

Storage Instructions:

Store out of direct sunlight and under cover. Avoid contact with skin and eyes. Edible carton and packaging.

DIRECTIONS FOR USE

Sheep/Goats: 5-10g per head per day
Cattle/Horses: 50-100g per head per day

Intake is recommendation only. Higher intakes are normally the result of mineral deficiencies. Place out sufficient blocks to avoid overcrowding of stock. Replace immediately when consumed.
